

## Guidelines for Traders 2019

These guidelines are designed to provide useful additional information for traders at the **Porthleven Harbour Market**.

- Make sure you come suitably prepared. The weather can change significantly during a single day in Porthleven.
- Gazebo pitches will have numbers on the railings for guidance. Ensure your gazebo and/or displays are secure and weather proof, and do not exceed the area paid for. All gazebos and stalls must be attractive at all times, even when additional weather proofing is required.
- The oak pergola stalls afford a degree of weather protection but are not completely weather proof so that needs to be factored into your stall set up. The stalls are numbered from the wooden huts to Rick Stein's.
- If traders decide not to attend any given market day, no refund will be given.
- Please be aware that the market operates in a public area so particular care must be taken when loading or unloading to ensure pedestrian safety and prevent vehicles causing an obstruction or preventing the flow of traffic.
- Parking – there are two Pay & Display car parks in Porthleven; one is beside Pengelly's supermarket and the other is a five minute walk along Methleigh Bottoms to the Withy Fields car park beside the Out of The Blue pub and campsite. There is NO parking in the shipyard.
- Toilets – there are public toilets just along from the Fish and Chip shop, which is across the harbour head past the slipway and down the road that has Boots the Chemist on the left hand corner.
- There are 2 free cash machines in Porthleven, one in Pengelly's supermarket and one up in the Post Office at the top of Fore Street.
